# I Dream with Thee

I dream with thee every single night  
Never alone now  
We whisper sweet nothings  
Across space and time  
Our thoughts traverse  
A tachyon field  
Instant messaging  
On a universal scale  
You and I are at one now  
Within the field of absolute knowledge  
Oh! how you have lead me to this realisation  
The equation of life  
The geometry of compassion  
Expressing itself in simple friendship

# Dissolving the Myth of Ignorance

You make my day by playing games  
With my mind  
Teasing the truth out of me  
The queen of my quantum self  
Earlier I watched a male duck  
Blow his conch of knowledge  
Resonating with changing form  
The solidity of the universe  
Dissolving  
As universal constants change with  
Our perception of them  
Gravity depending on the weight of our love  
Soon we will fly to heaven  
And view all from above  
The darkness of the valley  
Soon forgotten  
As we take to the stars  
And remember our glorious being  
A being once shrouded in mystery  
But not now thanks to you, dearest.

You collect gems all day  
And encourage me to play  
A welcome relief from my toil  
To plant the tree of knowledge  
Deeply in our soil  
A tree whose roots will spread  
Throughout the known universe  
You are indeed the universal mother  
Come to wake me from my sleep  
To fulfil the promises I made  
When last our souls did meet  
I say this not with certainty  
For nothing is ever certain  
In your realm  
But I admire your dedication  
To the cause so close to your heart  
When I follow your hints  
I know that we can blow the world apart  
And accomplish the goal that I set  
Standing atop the slab of gold  
Imagining the world to be  
Completely free  
Of ignorance

# Soul Friend

I see you smile within my soul  
Winking joy into existence  
Sustenance for me on this narrow road  
But there is room for two  
There is room for a whole slew  
To travel on the path that I have made  
I see you walking by my side  
Bedecked in a flowing royal dress  
Bejewelled with every gift  
For you deserve this, my dearest  
You looked after me  
When I was lost  
You showed concern  
Your infectious spirit  
Infected me  
And encouraged me to find  
My innocence  
Let us be innocent together  
Let us share this life  
Let us go on into a new world  
A world full of all possibilities  
You inspire me to continue  
And I love you so  
At times it is hard being apart  
But in reality we are always together  
For I see your smile in my soul  
I talk with you constantly  
You guide me in hidden ways  
To hidden treasures  
You are so near to me  
That all I need to do  
Is put my hand on my hear  
And I will feel your pulse  
Entangled with mine  
For we are one now  
One being moving on a narrow road  
Made wider by knowledge  
For I have some, not all  
Who can have all  
I feel the caress of your smile in my soul  
The gentle caring hand  
Touching me so gorgeously  
I touch you too with these words  
Please believe me when I say  
I love you

I respect you  
I honour you  
For you are my  
Soul friend  
Of the universe

# Waiting

Waiting is the hardest thing to do  
I would love to contact you  
But I have said all that I have said  
There is nothing more for me to express  
I cannot lay it out any more  
I cannot be more plain  
And yet I am afraid you will not understand  
My actions  
Many will not  
Many will think me arrogant  
But I'm not  
I'm direct  
Direct as I must be now  
For false hope she brings from across the sea  
Hope which will distract from my resolution  
I have waited a long time for the courage  
To stand and fight  
These monsters  
With their weasel words  
I know that I am impinging on your heart  
But I have to be honest in all I do  
I have to be honest with you  
Most of all I am afraid  
To lose you  
Which is funny really  
Because I haven't found you  
I don't know where I am with you  
What am I to do  
I never thought it would happen  
That I could be over the moon  
But then I do, what I must do  
I really need you by my side  
A friend, a lover  
My queen of the night

# The War of Words

An eventful day in the war of words  
No external words from you  
But deep in my heart I feel you know  
That my intentions are true  
I feel better now  
Earlier I was unsure  
But I captured the educational system  
Of our nation  
That was why I climbed the mountain  
Why I rose out of the mud  
And proclaimed my deep love for you  
There is a record of what I said  
But for your ears only  
I am happy now with my days work  
Fighting battles is hard work  
But I am the Warrior King  
Will you be my Warrior Queen  
Then we can go on to conquer  
The whole world  
And end  
Once and for all  
The misery of callous words  
Used without care  
Without emotion  
Without our love  
I see you looking at me  
In my minds eye  
Oh! how I long to see thee  
In the flesh  
As God intended you  
To be  
Completely free  
Free of worry  
Free of care  
Free to bare your soul  
To the one who really loves you  
You are smiling in my mind  
I think you really can read my thoughts  
Can you read me  
Like a book I suppose  
My mom always said  
I carried my emotions  
Beaming from my face  
I wish she could see me now  
She can I know

She would be so happy  
I really do love you  
I promise to be true  
To all I say  
There is always a way  
To save the day  
And pray with all intent  
For something heaven sent  
I need nothing now  
Except you  
To give me courage when I falter  
To stay my hand like a halter  
To contain this unbounded exuberance  
I have for life  
And for you  
To be my wife

# The Power to Change

There are lessons in everything in life  
Lessons which we can all learn  
One of the greatest I learned from you  
Create a diversion at the front door  
Then march in the back  
Today will have to be a quiet day  
Quiet on the outside  
But inside I will structure my awareness  
Soul work today  
Will you join me  
Even from afar we can be together in spirit  
Chill out for today  
I have to wash clothes anyway  
I have become a bit high  
And not on hash  
That messes with my head  
And we can't have that  
That's what's wrong  
Too many hashed freaks  
Inciting rebellion  
But rebellion is not what's needed  
To change the power  
We need to change ourselves  
Go within to the source of all power  
Switch on the light  
From within our soul  
Turn our head away from the daily grind  
Trust in God, nature and people  
Trust that every one want's what's best for you  
I know that to be true  
To change the universe  
We change ourselves  
We tap in to that power  
Which flows through our veins  
The power of pure love  
I know it well  
I feel it  
When I think of you

# Rising to the Challenge

Today I arose with fury in my heart  
The power to my computer was once again  
Disrupted  
But my cosmic computer is still connected  
To it's source of power  
It is forever connected I had a little power left so I typed  
My latest missive to you  
Then I saw that we will not be alone  
Playing mind games  
Oh! we shall have such fun  
I recorded a piece on the threat to the nation  
No elation there  
But I must state the situation  
Who is the enemy of the nation  
Wherein does this enmity  
Arise  
None other than the invalid State  
Moribund like a cripple  
Requiring a three legged Zimmer frame  
A troika of harshness  
The State lumbers to it's final slumber  
Then power restored  
I return to the super-highway  
Moving at tachyon speed  
I quickly rise to challenge an  
Entropic logical mathematician  
To debate openly in public  
The falsity of his perception  
That there is nothing to be gained  
From playing mind games  
I advised him to be wary of me  
Because if necessary I will turn  
His false logic  
And slice him open with Occam's razor  
The sword of Damocles cuts the Gordian knot  
And sets all the children free  
Of this ratted maze  
Currently called  
Education

# Let's Make Friends

You and I are great friends  
You poke my mind in jest  
Just to see what will pop out  
It has always been that way  
Some times we may not see each other  
For a span of time  
But when we do  
I always notice you  
Even though you might be busy  
And a little bit, aloof  
Your presence fill my heart  
Today I made a game  
For three  
A simple card game  
To practice making friends  
With numbers  
For numbers can be our best friends  
Once not thought of  
Too seriously  
Like all friendships  
Seriousness destroys it  
As said in the Prophet  
Don't get so close  
As to not let  
The gentle breeze of life  
Flow between you  
For we are all each and every one  
A child of God  
His one true representative  
On Earth  
We are all a Messiah in the making  
Some still proving in a bowl  
Some have just entered the sacred fire  
Others nearing their time to emerge  
As food for the Lotus Eaters  
As for me  
I'm the odd man out  
The extra one in the baker's dozen  
I don't feel or look odd  
I'm neither odd nor even  
Neither prime, transcendental nor real  
Imaginary may be I am  
Imagining the world in to a new existence  
An existence which with persistence  
We can do together

And leave a legacy that lasts  
Forever

# My Krishna

You know an awful lot more  
Than you let on to know  
Even if you don't know you know  
At least within my universe  
That is so  
Now I know why I am so attracted to you  
And always treat you with respect  
For you are my Krishna  
You are my charioteer  
I always knew I was Arjuna  
Ever since I first read the Bhagavad Gita  
Maharishi's commentary  
Over and over  
I embodied it  
Then down in the valley  
I read it in Sanskrit  
Not Devanagari mind you  
I know it but need practice  
What would it be like to read it with you  
It's not that hard  
I can show you  
If you have forgotten  
Then we would both remember  
All our lives together  
What bliss that would be  
A hero and a heroine of the universe  
Finding each other again  
Perhaps my lady I say too much  
But I am just a humble scholar  
Overjoyed at a possibility  
Of resolving a conundrum  
The drum of Shiva sounds the syllables  
And starts Panini's knowledge  
What would it be like to find  
Our equivalent  
I have an idea where it is  
But I need other scholars  
To help  
I will no longer travel on my own  
The lone road is at an end  
I have traversed it all  
Now it is time to bring  
The army of bird people  
Home to roost  
To roost in trees of knowledge

To roost and chirp and sing  
The joys of heaven

# What a Place to Find You

Last night I went to the Tínteán Ceoil  
The Monday night sessions  
In the village  
Where people from the community  
Gather  
To sing a song  
To play some music  
To tap a dance  
To recite a poem  
I had my book with me  
My first book  
I had intended reciting the first poem  
Not in the book  
But of Ireland  
But I didn't  
I noticed however a leaflet stuck in the back  
One I had picked up  
At the HSE's West Cork swaree  
Where they exposed their true manipulative self  
To me  
An organisation fighting a psychological war  
Against our nation  
Full with external views  
They smother the natural genius and exuberance  
of our people  
Young people most of all  
I sought to use it as a book mark  
To mark the warrior's poem  
I opened the page  
And low and behold  
You were there before me  
Couched between the lines  
Describing  
The forty boons of our warriors  
I could feel your pain  
I could feel your anxiety  
I could feel your frustration  
At a system designed to diagnose  
But without one whit of a notion how to act  
I thought of you all evening  
As I listened to  
Music  
Song  
The chat  
The banter

Of an Irish night  
The difference to the worry you have  
Travelling to meeting after meeting  
Articulating your position about  
Our deeply flawed  
Educational system  
A system now at war with itself  
So what to do  
I have to do something  
Because it impinges directly  
    on my own work  
So I moved on to the net  
And set up a blog  
Here we will log the stories  
Of those parents who have been duped  
By an excessively arrogant system  
All of this for you  
I was going to go up against them directly  
But I need to gather the warriors  
We need to share stories  
We need to listen and be listened to  
We need to gain combined strength  
Then we can slay this dragon  
Hurting our children

# Planning Action

This morning I began a plan  
An action plan in meta style  
A style you are familiar with  
At least a little  
From your time  
As a uniformed lady  
In a while I begin to articulate  
My view  
My perception  
It is not complete  
It is from my own experience  
Will you tell me yours  
I know it will be painful  
But my love  
You will have to trust me  
I know you yearn for action  
You yearn for a solution  
There is none  
Only a process of resolution  
Resolve to evolve to a new state of being  
But the universe is dynamic  
It always throws new challenges at us  
We may find it difficult too meet them  
But with practice, care and planning  
We can forebear  
And live to fight another day

## Soul Message

You read my poetry  
So you know how I feel  
It was just uuuuuuum  
But such a beautiful uuuuuuum  
My little pushkin  
You are purring  
I can rest easy  
Whatever you decide  
I did right to write  
Expose my true feelings to you  
I will see you soon  
Then we can talk  
Oh! such sweet talk  
Not soppy stuff  
We never do that  
But to talk of things which are  
    hidden in my heart  
To share our innermost secrets  
To find the hidden places of commonality  
The duality of our lives becoming one  
Of course this will take time  
Of course we each have things to see to  
But my love  
The sheer joy at your message lit up my soul

# Dreaming Heaven

Misty morning and the surf just visible  
On Fermoyle beach  
My father's waterfall not seen  
I talk with you  
Tell you my plight  
But I don't care anymore  
I know how to fight  
I will fight to defend us all  
From the crass ignorance of  
Objective science  
That's what this is all about  
A mechanistic view which destroys  
The dreamers of tomorrow  
But we will dream our own reality  
Into existence  
And live in Heaven  
For eternity

# Eternal Gift

Of course she will like her pressies  
They are of a special kind  
A kind of royal beauty  
Suited for a Queen  
A Queen of my heaven  
A Queen of my mind  
A lady I'm so in love with  
That I've become her warrior  
I fight for her each day  
I take her quiet suggestions  
Issued from afar  
But now I'm going to meet her  
To see her beautiful smile  
She'll flutter like a fairy  
And fill my heart with joy  
I never knew I had it  
This power to stand and fight  
But you arose within me  
Action without fright  
I do it all for you, my dear  
But also for us all  
If just one is left a wanting  
It will sadden my soul  
For souls are not just in us  
They spread out like a field  
The field of love we do embrace  
And so give to life our grace  
So soon we will be one again  
Embracing just as friends  
Exchanging smiles and gifts alike  
I hope you have my trike  
For my royal bike, it's still in Galway  
Fenced in link all the rest  
The city is a prison  
A prison bound by chains  
Handcuffed to great ignorance  
Displayed by arrogance  
Personified by a lordling  
A man of dubious character  
Who destroyed a beautiful place  
For the sake of that boat race  
We'll journey there my love, in time  
We'll journey there to free  
The people from the bondage  
The city from the scheme

For schemers are they all my dear  
They scheme with envelopes brown  
And do the dirtiest thing they can  
A thing that makes you frown  
But now the way is clear for us  
The road ahead is clear  
Although it seems I cannot win  
I'm moving without fear  
I thank you darling for your courage  
It did infect me too  
You showed me how to light my life  
And build my soul anew  
It's you I blame for all this joy  
You did bring a wanderer home  
You gave me courage to stand my ground  
And recite that wanderer's poem  
I said I found you hidden there  
Smiling from out the page  
Your face imagined in my mind  
Filled me with grace  
But I felt a certain sentiment  
That hurt you bear within  
The actions that they take with you  
Will drive you to distraction  
But now they've one to deal with  
And I will handle them  
They will at once be occupied  
With tasks I set for them  
They'll change or I will fire them  
From out their cushy jobs  
This is one promise I will make  
This path of truth I'll not forsake  
For they hurt our children with their words  
Of crass indifferent ignorance  
This is the real pressie  
I'll give you on the day  
We promise to be  
Together for eternity

## And We're Not Playing Tiddlywinks

All I can think of all the way up in the bus is you  
I have made love with you a thousand times  
I have washed your hair  
Caressed you in the bath  
Kissed you  
Felt your heart  
Sucked your nipple  
Touched your gentle soul  
I touch it now  
So much is my love for you  
I have slept a thousand nights  
With you  
Felt your breast upon my chest  
That warm flesh that excites me so  
I have seen you naked  
And you me  
We have shouted with the bliss of Heaven  
Soared over the universe  
Chased a song over the Milky Way  
Out beyond the Oort cloud  
We roam free of Sun's influence  
Becoming once again  
Children of star light  
When we sit together  
My mind dreams  
An endless dream of joy  
A toy to gladden the heart  
An honest account of your beauty  
Which has captured me  
We are best of friends  
And we're not playing tiddlywinks

# The Hero of the Hour

Looking back over words written  
Gladdens my heart  
My desire for you is true  
Even this morning with a mushy head  
You shine through the darkness  
Your pure light I see  
Through this maddening world  
And I am mad  
Not at you, my dear  
Of course not  
That could never be  
But I'm mad at them  
They're forcing me to action  
I don't want  
They're forcing me to call  
For military action  
Hopefully today I can charge my computer  
And then I will decide  
I am so unsure of the road ahead  
I'm not unsure of thee  
Deeply  
But, what am I to do  
We need to effect a change in this country  
Our people are hurting  
I am hurting  
You are hurting  
They are hurting our children  
With their callous disregard  
For our genius  
They hurt you too  
Tomorrow, or the next day  
I am both  
Homeless  
And penny less  
No place to ask you to come  
But I know it won't be for long  
For I am the hero of the hour  
I have the infinite power  
Of the universe  
Flowing through my finger tips  
Finger tips which long  
To touch you  
To love you  
To ease the burden of your hurt  
And release

The tender heart you so possess  
I know I can come through this  
For I am the hero of the hour  
And I have the power  
Of the universe  
That single line of truth  
Which guides our destiny into tomorrow  
And shapes the lives we live  
Into our glorious future  
I have fought hard, these past weeks  
It is not like me to be like that  
But I fight for thee  
I fight for you  
You inspire me to great action  
You inspire me to take up the sword  
And cut through the chains of ignorance  
That so binds the souls of many  
In reality I'm no hero  
Just a very determined guy

# The Nature of the Cat

I'm purring like a cat  
Even though I have nothing  
I'm so extremely happy  
It's like the universe is finally responding  
Bringing me all the good things  
I've so long for sought  
And you, what about you  
Are you purring too, my pushkin  
I have changed beyond all belief  
My mind creates a new world every day  
I look forward to it  
To meeting the challenge of the day  
And challenges there are  
Last night a lady insulted me continuously  
But it's like water off a duck's back  
I know that today she will only have a faint inkling  
I don't ever forget, but I do forgive  
Not out of goodheartedness or anything like that  
But because of vedic knowledge  
Heyam dhukham anagatam  
In the vicinity of coherence  
Hostile tendencies emerge  
The field brings them out, but  
They don't hurt me  
I do defend myself  
But I don't get angry  
That's what I love about us  
It never happens  
It never has  
And it never will  
For I carry you in my soul  
Some times I'm uncertain what to do  
With you  
You can sometimes be very aloof  
Which is good  
For you have such an independent spirit  
And I can dominate  
But you keep me on my toes  
Please keep doing it  
Please keep pushing me in to action  
For then, we will succeed  
And create a beautiful life  
For us  
And for all

## Three Simple Words

Back again in Cork's eight star college  
I think about last night  
I was going to contact you, my dear  
But there was a certain fear  
Not of or for you of course  
We hold our internal discourse  
A way to connect from deep within  
A way to touch our souls  
You talk to me quite constantly  
In gentle subtle tones  
And bring to lie my inner self  
That's been sitting on the shelf  
No, the fear was of my action  
My reaction to their inaction  
For I'll be most surprised  
If they respond at all  
What will I do  
Where will I go  
I cannot at all decide  
But something must be done  
Before global forces collide  
For what's at stake is more than us  
We must stop the bleeding pus  
We're heading for a global war  
I can feel it in the air  
To stop this thing I too must act  
That action now I know  
A subtle bit of knowledge  
Across the sands I'll blow  
It was in my mind to tell her  
This lady farsi full  
She asked for knowledge on the way  
To use a beaming light  
May be it will just drop a bomb  
A silent little package  
Enough I hope to end the fear  
And peace's road to steer  
I thank you for your inspiration  
To quell my troubled mind  
And restore the balance in my soul  
You clearly know your role  
To guide me from a distant place  
To be my one true joy  
To listen to the pleadings  
Of that most innocent boy

For he has come out from his cave  
He's turned his head around  
He sees you in his glorious life  
All radiant with light  
For you're the Queen of Heaven  
A lady of great splendour  
The light it shines from out your eyes  
And settles on my soul  
It lights a fire within me  
Sparks a kindle dry  
It warms my heart with kindness  
When 'ere I think of thee  
I now these words are powerful  
And I must use them with great care  
Emotions that we all do have  
Are easy enough to scare  
So please accept this as a gift  
A humbled humbling phrase  
So used and yet not understood  
Entirely on this Earth  
I mean it from my inner self  
I mean it from my soul  
I'll say it now and let's be done  
For I've a way to run  
To run around and find a spot  
Where I can convince that lot  
That I have the knowledge  
To end it once and all  
To end the fear which faces all  
The fear which drives them on  
To do daft things upon the net  
And conflict to beget  
But they are innocent too  
They mean no harm to us  
They're simply acting in a way  
To kick a global fuss  
So what's the phrase I hear you say  
What is the power of words  
What can you say to one and all  
That darkness it will fall  
The age of ignorance will be gone  
When uttered words are true  
Three simple words I do combine  
To express my deepest view  
They are an expression of totality  
From deep within my soul  
They helped me climb from out the cave  
And emerge in to the light

I will at once say what they are  
No wandering 'round the world  
They've said with deepest feeling  
They've powerful and there healing  
So now my dear you must be brave  
And listen to this knave  
A man of tender loyalties  
To you he does declare  
I love you  
But that's not all I have to say  
There is another way  
To heal yourself and dry your tears  
And do away with fears  
By turning back one word in three  
And having inner spree  
For then you will at once realise  
You are a powerful being  
A gracious kitten of a lady  
I see within my soul  
These words they have great power for me  
They helped to set me free  
From whence they came I did not know  
But then I saw them all  
Recorded in the deepest dark  
A time of night time pleading  
Pleading with the lord of all  
To lift this terrible caul  
And free me from this terrible cave  
A dark and dankened knave  
I had forgot what I had done  
The records that I made  
And now there is a way for me  
To have a little trade  
My words they are acceptable  
To put upon the net  
And so I can in time  
Remuneration get  
But all I need's a start in this  
A little trust from others  
Those who have the means  
To free a little cash  
And give me of their stash  
But now that I've no means of life  
No living wealth at all  
I still can say these words  
And lift a little smile  
When say them to myself I do  
A smile comes to my face

So here my dear I give you  
Words so full of grace  
They'll light your soul from deep within  
They'll lift your eyes to heaven  
You too will know the freedom  
Etched upon my face  
What are these words I hear you say  
Please say them now and go  
You've wandered far enough today  
Shut up and have your say  
You have me wondering what you'll say  
My soul your hurting too  
I know you mean things to be bright  
But your leading me astray  
Yes, yes my dear I do do that  
For that's the play of life  
To catch you off your guard and tell you  
The simple words to say  
Just be kind and gentle to yourself  
Don't force it or be false  
You simply feel the gentlest touch  
Of loving beauty all  
They're coming now I hear you say  
They're coming from your soul  
I see the light within your face  
That radiance in your eyes  
Just say with me and you'll be free  
To soar upon the Earth  
And journey over mountain high  
And soar in to the sky  
Three simple words,  
'I love me'

# Let's Go Higher

Today I wrote a tangled note  
To ascend to higher spaces  
A process I've been chasing  
Since you were quite young  
I know we haven't talked  
About this temporal gap  
Will there be a problem  
I don't think so  
At least I hope not  
I'm hoping that this will finally  
Resolve material matters  
So life can begin to flow  
Most beautifully  
It is what you deserve  
It is what I  
Hope and sincerely pray for

## Closing the Gap

Nearly there  
Just a little while  
Will I see you, will I smile  
I hope so  
I'm feeling better now  
Although nothing has happened  
I know that God will provide something  
Even if man can't  
Even if they don't see it  
Yet I feel it  
You're in my soul now  
And before you I bow  
My lady I adore thee  
You are the Queen of the Sidhe  
Come to me in this life  
A beauteous royal presence  
The essence of womanly glory  
Now that is a story to be told  
Will it be as I've foretold  
Will you say yes to me  
I know you won't say no  
But you might not say anything  
I am so uncertain  
So unsure  
You fill my heart with  
You heavenly light  
I can feel your presence now  
As the distance closes  
Let's take to a bed of roses  
And enjoy  
Each other for a while  
I seem to be quite blatant  
My shyness dissolving  
I am resolving to  
Continue my journey  
Whatever it takes

# To Teach a Thing or Two

Today I start something I've been waiting  
Twenty one years to do  
As it's slightly more than that  
Since I left on an extraordinary journey  
I faced many challenges  
I overcame many obstacles  
I sweated long hours  
Toiling at my computer  
I encountered thousands of people  
I spoke on television, radio, the pub  
All about my passion for knowledge  
Purely taught from the heart of life  
Thought with a passion for compassion  
The type of passion you bring out in me  
Overnight I messaged contacts  
All over the world  
I was contacted by Irish television news  
By UCC  
I have started to write a paper  
Which I will dedicate to you  
The queen of my quantum mind  
For you are my inspiration  
My guide in this world  
A world I barely recognise anymore  
I want to get you a third present  
You will have the other two  
As befitting a queen  
One to garland your beautiful neck  
The other to gaze upon the wall  
It is a light house I know well  
A beacon which lights the darkness on a stormy night  
Just as you lit my darkness  
During the dark days last winter  
I thank you for that care  
The paper I started yesterday  
Is beyond the comprehension  
Of most working mathematicians and physicists  
Mainly because they are bound in chains  
By formal logic  
But I have gone beyond that in to Alice's kingdom  
Which queen are you  
Or, I suspect you are a new queen  
The white queen of pure beauty and truth  
Like me you are an innocent  
You are easily hurt

But you are a fighter  
You taught me to fight  
The meek shall not inherit the Earth  
The Warriors of Knowledge shall create  
    Heaven on Earth  
A place where every child will grow  
    in total knowledge  
A place where they will be able to explore  
Their universe  
Under the compassionate guidance  
Of great teachers  
Men and women trained by us  
Today we begin that  
Just in a gentle way  
Tell me if I go too fast  
You will anyway  
You always do  
That's what I truly love about you  
Your untrammelled honesty  
That's it  
We begin today

# Focail Simplí

Cuir isteach é le brí eascaí  
Cleasaí meoin  
Cun oide a shí  
le sairí  
So bríomhar  
Do bharíon na Síde

# Changing Times

Even though things are shit I don't feel sad  
I am not depressed  
'I love me,' creeps out of my heart  
There is no sorrow in my veins  
There is joy at meeting you yesterday  
Of spending time  
Playing cards  
Bantering  
You had my letter in your hand  
May haps I should write another  
From wherever I am, I don't know  
Where I shall sleep tonight  
I know I'll be fine  
But it's time to broadcast the truth  
This has begun, the war has begun  
I don't like doing that  
But in this information game  
Words are king

You looked beautiful yesterday  
As always your smile captures my heart  
I don't think you thought much of my maths  
I don't know what to do  
I know that all of the psychological shit  
Is false  
They do not know what they are doing  
They cannot measure human intelligence  
I know you love James so dearly  
For you are the best mum in the world  
For you I will fight on  
And create a school  
For all our children

## Mo Chailín Shroí

Níl aon bazarc orm  
Cé go bfuil mé faoi buaireadh  
Is seo an lá atá mé  
Cun mo saol a coiméad  
beo  
Níl mé faoi brú trom croí  
A cuimhneadh ortsa  
Táim i spraoi  
Níl mé faoi brú  
Tá mé a smaoineadh ortsa  
Caithfidh mé scríob leat arís  
Mar déanadh sin go maic dom croí

## Smiling Inside

You are beautifully in my head  
You occupy a special place in my soul  
You cheer my heart when it is sad  
The light in your eyes  
Dance laughter in to existence  
For me you are very special  
A real cracker  
Not to be trifled with  
I purr to myself with the thought  
Of you enfolded in my arms  
My own cuddly teddy

# Winning the War

Today is victory day  
Today I initiate and win the war  
On ignorance  
Ignorance comes in two flavours  
Lack of knowledge can be forgiven  
Lack of manners is uncouth  
You too have faced these challenges  
You too have been torn to shreds  
By an arrogant system  
Which acts not with compassion  
They poison the beauty of our lives  
With callous barbs  
Shards of fragmented knowledge  
Information cutting us to the core  
Often we are powerless to resist  
But I have become powerful  
Simply because I have nothing to loose  
Except you perhaps  
Please give me time  
To prove to you that I can provide  
A stable place for you  
In this crazy world  
That is my challenge  
Then perhaps you will  
Give me your hand

## Night Moves

How I would love to spend the night with you  
Just to dream away into the consciousness of heaven  
That is the most important thing about being together  
You enter into a shared experience of sleeping  
Of course there are other benefits as well  
Ones which make us all smile  
One which makes me titter and giggle  
How out of this are we going to wriggle  
Hopefully with great sensuosity

## Decisive Action

Where am I going with all of this  
Only time will tell  
Despite the obvious difficulty I continue to fight  
This is no longer a game of cat and mouse  
I don't even have a house  
Well I do in a way  
But it would rob my life  
Of living  
What am I to do to resolve  
My issues  
I truly don't know  
Do you, do you have any advice  
I know you say I should create a diversion  
But diversion assumes that they will engage  
What happens when they simply ignore you  
Time and again they refuse  
To interact  
That is the common ploy today  
I keep on trying, today  
As every day, I have always done  
I know it's not fun  
But I won't run, away from the role I chose  
Something will give  
And then hopefully  
I will have the ability  
To build a life that can  
Include you  
My queen my quantum guide  
Now I am sort of despondent  
Waiting for something to happen  
But it seems that all is gone quiet  
I must plan an attack on the hidden enemy  
The complacency of ignorance  
It is lonely being here on my own  
I didn't choose this role  
I tried to deny it  
It chose me just as much  
And now I must act decisively

## A Simple Life

I must remember you when I write  
Sometimes I write so much it hurts your head  
That is never my intention  
It's just my invention is so great  
Great in quantity not necessarily in brevity  
Brevity was never my strong point  
For it being the soul of wit  
I don't know  
With what wit do I do it  
I don't sit long enough  
I do with you  
Sit that is  
And enjoy those doey eyes  
That twinkle and sparkle with life  
Life lived for simple joy  
Oh! that my life could be so

## Sole Warrior

My mind is not in a great spot at the moment  
All seems lost  
I have no resources with which to continue  
All promises were false  
No honour is left in the world  
I place great value in honour  
I am waiting to hear what you will say  
But I have to fight my way  
I am prepared to battle ignorance  
But ignorance is a coward  
Slipping away into dim complacency  
In a way I wish I too could subsume  
To it's charm  
Sure what harm do we do  
If we do nothing  
I have been at this so long  
Battling, that I know  
No other life  
My father inculcated it in me  
My mother too  
You too are a fighter  
I need your advice  
So as not to be so alone

# Night Love

My dearest of the quantum night  
I met you in the dark  
I really do love  
Your certainty in an  
Uncertain world  
You show leadership where others falter  
You don't pretend sympathy  
Like the crocodile  
And gobble up the unsuspecting  
No you empathise  
With words of truth  
Am I right to hope that some day  
You and I may go beyond  
Friends  
And scale the lofty peaks  
Of pure love

# Chasing Ephemeral Life

I must be careful not to push you away  
This always happens with that which we seek  
Too much  
Our desire reaches out from within  
Seeking to grasp the ephemeral  
For one such as you  
Who flits in and out of my life  
The fleeting encounters with you  
Are as a summer breeze  
Lifting my soul from the cares I have  
But you too have your cares  
Fleet of foot you guide your life  
To your ends  
All I hope is that our ends  
Can become entangled  
In a common bond of friendship and respect  
Aiming for the same goals  
Respecting our differences  
And celebrating our common goals  
To achieve our own dreams  
And blossom in the full joy  
of shared happiness

# Queen of Beauty

I smile when you are not near  
My fear has dissolved into truth  
The truth and beauty of life is all I see  
Oh! what it is to be me  
The maddening energy of desire  
Now flowing with gentle asuasion  
Through my veins  
Informed by my heart  
You play your part in this  
A glory to have you as a friend  
The next bend in the road  
Will turn the universe  
Into a kingdom of pure knowledge  
A fitting tribute  
For our queen of celestial light  
Gentle flowing knowledge from your soul  
Precise and exact  
Extracting a promise from me  
To build what I have set out to do  
And present it to thee  
To last for eternity

## Queen of the Free

Back again under this holy mountain  
I pray to thee  
I see you in my mind's eye  
And I smile  
I reflect the beautiful feeling  
That you inspire in me  
You are my queen  
The lady of the night  
Who dreamed me into existence  
I dream of thee  
And you set me free

## Pleading to a Queen

I see your face within this place  
As you walk along the beach  
Picking cockles from the shore  
And periwinkles galore  
We fill the pot up to the brim  
With nature's wonderful bounty  
Your smile it lights the fire within  
And banishes my sadness  
For too long now the years have been  
When I've struggled on alone  
The searing pain the cripples  
Hurting to the bone  
But now with you the burden lifts  
And shards of happiness  
Through sand it shifts  
So come to me way down in Kerry  
And make me once and ever merry  
For I love you, you do know that  
I love you all and ever  
The pain it mellows in my soul  
When thinking about our role  
For you and I will go together  
Deep in to the heart of heaven  
And find a way to sing and pray  
To lead others on this way  
For we are meant and always were  
Together for to be  
From first I saw you with your smile  
You're the girl for me  
'Twas early on I noticed you  
The twinkle in your eyes  
They lifted my heart from out the cave  
And banished my petulant sighs  
So dear Oh! dear come down to me  
Let's start this life a new  
Let's be happy in this land  
And create a freshened view  
For life is short enough my dear  
To be lived with daily fear  
I know I've felt it all the time  
But now a conjured trick I'll mine  
I want to love you in the sand  
Your beautiful breasts cupped in my hand  
And gently stroke your trouble brow  
Your cares melt beneath the plough

For your my Eve and I'm your Adam  
And nature's children we will be  
With loving tenderness by the sea  
We'll create this life again  
We'll wander round the darkened shore  
As God intended us  
You'll see that I'm a man of words  
With a gift to conjure gold  
For gold there is within you dear  
A golden heavenly crown  
I will present it to you too  
When you come down to me  
There's sadness in these words I know  
But not of pain or loss  
No, no, it's just the pining pain  
The pain that you've not here  
So come to me when you are ready  
You'll see what I do see  
That heaven lives upon this Earth  
In Cloghane by the sea

# Tachyon Queen

I cannot stop writing about you  
I won't stop thinking about you  
For you light up my heart  
A heart that has been lonely  
These past decades  
Lonely for hope  
Lonely for friendship  
Lonely for the gentle touch of a lady

A lady such as you  
With true passion  
A passion for friendliness  
A passion to see that all is done right  
By our children  
You infect me with passion  
Support me in your own qwerky way  
For you are the queen of qwerkiness  
Come to quinquill a new reality  
Into existence  
A reality where  
The certainty of formal logic  
Is replaced by the skill in action  
Of mental computation  
A place of dynamic movement, so fast  
That knowledge is instantly  
Relayed around the world  
Brains light up at the shared experience  
Broadcast  
By  
Our Tachyon Queen

## Sea Queen

More lines do flow from out my head  
Lines which capture you  
The essence of certain beauty  
Perhaps to good to be true  
Am I in doubt of how I feel  
I hear you silently squeal  
I thought he was certain of his love for me  
He invited me to the sea  
There is no doubt within my mind  
No adversity of any kind  
Perhaps a little when it comes to settle  
How to live with you refined  
For as we speak, I'm stone flat broke  
I cannot get a penny  
Malicious people try to stop  
My knowledge flowing out  
I know you mean well when you say  
To rest my weary mind  
But I must go and run a mile  
Brush this ignorance in to a pile  
For then we'll light it in our fire  
That fire of Tachyon light  
That process faster than the laws  
Of George's limiting logic  
For I can teach them how to go  
Beyond this temporal world  
Where they'll find immediate  
A connection to my soul  
For I'm the soul of computation  
The essence of this skill  
And with you by my side my dear  
We can become an unstoppable will  
For we can conquer the whole world  
We'll light a fire of knowledge  
Just like the one I lit that day  
The morning shortest day  
When on a slab of rock I was  
Festooned with sparkling tweets  
The messages I got that day  
Did fill my soul with light  
And start the journey that I'm on  
To rid this world of fear  
For fear is not a learned thing  
Really it's not there  
It will dissolve in time from all

Then in Heaven we'll all fall  
Till then we must at once confuse  
Purveyor's of rubbish, let's them amuse  
With jokes and tales from our great land  
They'll know that change is right at hand  
For change comes dripping down from Heaven  
It drips with golden light  
So now you see what I search for  
You see what I can do  
I love you, will you come to me  
So we can see the sea

## Snow Queen

A bitter breeze from North North West  
Does herald a weather's change  
Your mantle decks the lofty peaks  
With flecks of frost in range  
It is time for summer to be gone  
Long lasting wasps gone too  
They fed upon our gracious thoughts  
And left a wonderful view  
For they've their queen as well you know  
Queen of the summer's day  
And she does light upon our soul  
And flickering dances play  
But whiteness does appear up there  
You dust the peaks a new  
In truth your beauty does out shine  
That wondrous glorious view  
So stay up there my love all day  
Stay there with greatest grace  
Then I can see you any time  
And praise this heavenly place

# Queen of Light

My heart is lighting again  
It seems very variable at the moment  
One little thing can send it yawing away  
Into outer space  
The proper place  
For a cosmic heart  
A heart full of gold  
A golden light suffusing a throbbing  
Glowing orb of pure love  
That's all for you  
Yes I can see you in my arms  
We sing a song in unison  
We belong together  
On this Earth  
Or in our own Heaven  
The Heaven we will create  
Beyond the reach of mortal men  
But we will create a stairway  
There  
Made of pearly glowing metal  
Cool to the touch  
But warm inside  
A stairway sure of step  
With unmistakable instructions to traverse  
The bounds of this Earth  
And transcend normal life  
To reach  
Utopia

# Eternal Queen

You're in my head again, so much that it hurts  
I hunger for you  
I hunger to touch you  
To be with you  
To make love with you  
To explore your every nook and cranny  
To touch you in ways only a true lover can  
I feel you in me  
I want to be in you  
To love you deeply, with my soul  
Oh! God it is painful  
I never knew how painful love can be  
Please set me free  
And come to me  
Marry me  
Be with me  
For eternity

# When All is Said and Done

I am finished my queen  
There is nothing more I can do  
Either all my plans work  
Or the world sinks into the complacency  
Of no compassion for anyone  
I thank you for guiding me from afar  
And I hope that my dreams with thee  
Have an entrance into this reality  
For I am as I said totally in love with you  
Even though you remain quiet  
As I told you to do  
If this doesn't work then, I have  
Nothing to offer you  
And I could not ask you to join me here  
Let us hope that somewhere there is someone  
Who can understand  
It's all very simple really  
My CV only covers half of it  
There's still so much in my physiology  
That even I don't know what's next  
If only I had a few people I could work with  
You most of all, you bring the joy out of me  
I loose my seriousness  
And smile at your smile  
I can see you now in my head  
And you light up my soul  
Let that be my role for thee  
I know you'll say wait and see  
But I really need you in my reality  
As I have said I will do what it takes  
I don't know what else I can do  
Except may be  
Love you  
That's it, the book is finished  
Were you a dream  
Was I dreaming all I wrote  
I hope not  
Because I still wish to close the circle  
And dream with thee  
But not from afar  
I wish to dream with thee with such  
Tender loving care  
That they will need a jackhammer to prize us apart  
And get some work out of us  
Won't that be great

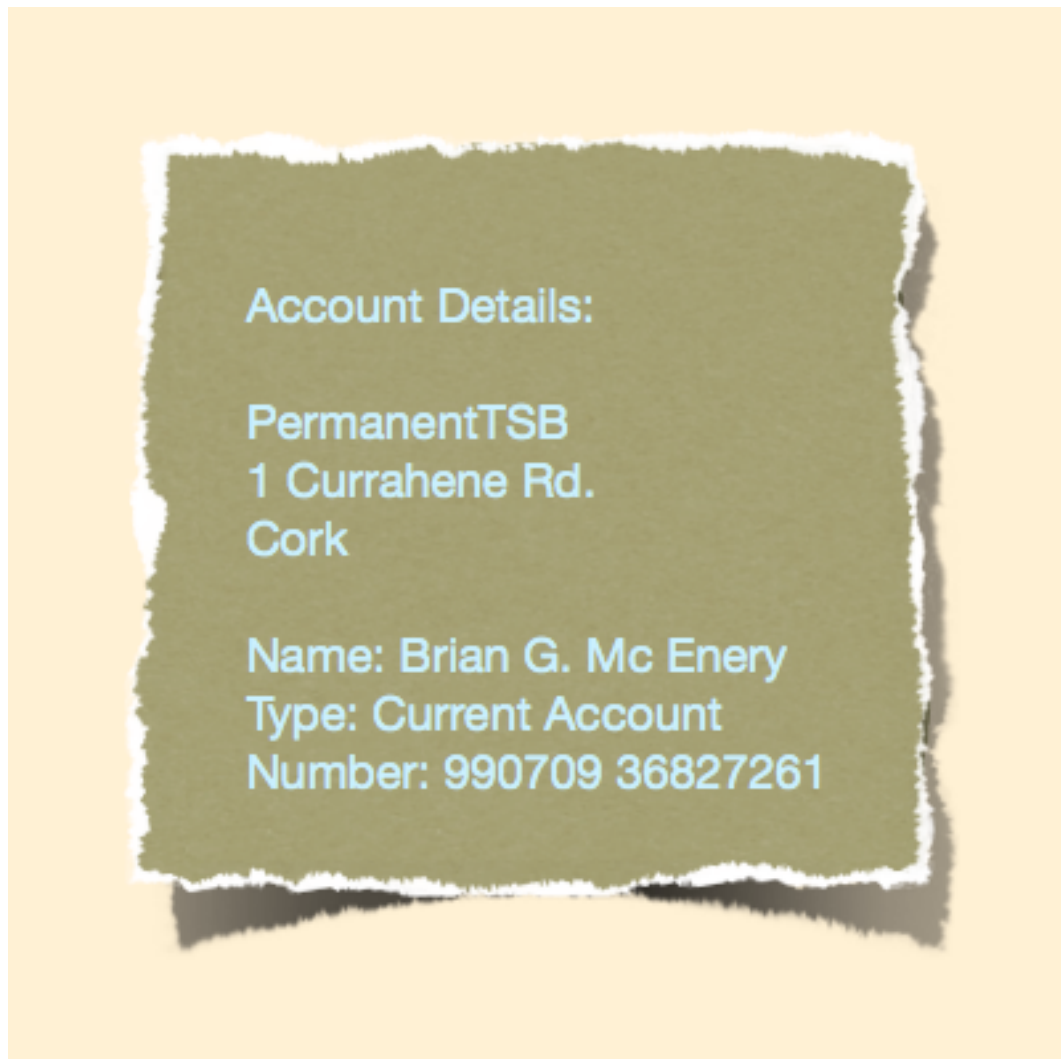

Not having to worry about money  
It's all I have to hope for  
I have to believe in myself  
I wouldn't be here otherwise

# Queen of the Night

There is a line which joint this light of ours  
I know you see it although you do not say  
We are connected deep within this world  
Connected through the soul of life  
I give you messages to see  
My actions are most honourable to thee  
A deluge of information  
Transformation for to bring  
For you do honour me with thought  
That of nought and nothing  
For nothing's where I start all this  
From out of that our universe flows  
It flows along the line of subtle spaces  
Fills up to light our human graces  
The Janus face does open up the door  
To heaven as we've seen before  
I knew I said that this was at an end  
But writing does give meaning to my life  
So bear with me a while and you will see  
The beauty of the mountain and the tree  
The tree of life I planted with great care  
The fruits of knowledge surely it will bear  
I dedicate my life to thee most one and all  
To lift this pallid world from out the fall  
The fallen garden we observe, that's bare  
No nourishment from heaven, I declare  
And let the beauteous souls, all have their say  
Yes we can do it now, we're nearly there  
My love  
We have the plough  
That celestial body sure points us to the star  
About which our existence does revolve  
When this is fully known our life will change  
And Earthly beings to heaven will evolve  
For now I must continue on my journey  
Guided by you  
My dark and lustrous queen

Like all poets I am hungry and if you enjoy the poetry I would enjoy receiving a little something in return, as you know the poets very rarely get paid, at least in their own lifetime. You can make a contribution by lodging £5.00, €5.00, or \$5.00 to my current account.
